PURSO OY
purso.fi/en/

Purso is a Finnish, international family company founded in 1959, specializing in aluminum solutions, with its headquarters and roots in Siuro. We use 60% recycled aluminum in our products and the luminaire bodies are made of 100% recycled aluminum. We have our own smelter

plant in Ikaalinen where recycled aluminum is produced as an extrusion raw material. Lighting was established as a business area in Purso's operations in 2012.

We design and manufacture the luminaires we sell in Siuro at our own factory. For luminaires, we use the SNEP® registered trademark. Typical applications for our luminaires are industry, logistics, retail stores, parking garages, sports facilities, offices and public spaces.

The luminaire collection is designed to be customized to best suit the target. To support the product selection, we have brought to our website the SNEP® product selector, which seeks to individually select the right features and provide all the necessary files and attachments to support it. We are a fast and reliable supplier for lighting projects of all sizes.

Our energy efficiency starts with production, continuing from product features to a reliable long life cycle.
